

NANO KOREA 2024

The 22nd International Nanotech Symposium & Exhibition

(Reader) Dr. Jun Young Cheong

James Watt School of Engineering,
University of Glasgow, Glasgow, G12 8QQ, UK

Dr. Jun Young Cheong is currently a reader at the James Watt School of Engineering, University of Glasgow, United Kingdom, since May 2024. He was previously a group leader at University of Bayreuth, serving both Department of Chemistry and Bavarian Center for Battery Technology. Prior to joining University of Bayreuth, he was a staff engineer at Samsung SDI, specializing on electrode processing. He received his BS degree, MS degree, and PhD degree in materials science and engineering from KAIST in Korea (2014/2016/2020, respectively). His current research topic includes the synthesis of functional materials, energy storage and conversion, and in situ characterizations. Jun Young has published more than 80 articles and holds numerous patents and patent applications.
