

NANO KOREA 2024

The 22nd International Nanotech Symposium & Exhibition

Prof. Roland Kawakami

The Ohio State University, USA

Roland Kawakami is a Professor in the Department of Physics at the Ohio State University. He received his Ph.D. in Physics in 1999 from the University of California, Berkeley and was a postdoctoral researcher at the University of California, Santa Barbara. He joined the University of California, Riverside as a tenure track faculty member in 2002 before moving to Ohio State in 2013. His group is involved in the studies of quantum materials focusing on magnetic and topological phenomena, and studies of 2D materials for electronic charge and spin transport.
