

NANO KOREA 2024

The 22nd International Nanotech Symposium & Exhibition

Dr. Hee Jung Kim

School of Advanced Materials Science and Engineering, Sungkyunkwan University, Republic of Korea

Hee Jung Kim is a Research Professor in the School of Advanced Materials Science and Engineering, Sungkyunkwan University (SKKU). She received her Ph.D. degree in Advanced Materials Science and Engineering at SKKU in 2019. Her ongoing research is primarily dedicated to the synthesis and characterization of nanomaterials for environmentally friendly technologies, particularly in the realms of pollutant management and the development of green technologies for fabricating perovskite solar cells.
