

# NANO KOREA 2024

The 22nd International Nanotech Symposium & Exhibition

---

## **Dr. Ju Young Woo**

Korea Institute of Industrial Technology, Republic of Korea

---

Ju Young Woo received his B.S. degree from Inha University, and M.S. and Ph.D degrees from KAIST. He is currently a principal researcher at Korea Institute of Industrial Technology (KITECH). His research interests include synthesis of semiconductor nanocrystal quantum dots for various optoelectronic applications (e.g., display, sensor, and photovoltaics).
