

NANO KOREA 2024

The 22nd International Nanotech Symposium & Exhibition

Dr. Jangho Kim

Chonnam National University, Republic of Korea

Dr. Jangho Kim is a Professor of Convergence Biosystems Engineering at Chonnam National University and a CEO/founder of NANOBIOSYSTEM. Prior to joining the current position, he studied as a Researcher in the Thin Film & Charged Particles Research Laboratory at Department of Electrical and Computer Engineering, University of Illinois at Urbana-Champaign. His research interests include 1) micro/nanofabrication & biologically inspired engineering systems, 2) stem cell and tissue engineering, and 3) bio-nanotechnology. He has authored and co-authored more than 145 peer-reviewed journal publications and 25 patents. Among the awards he has received are Young Scientist Award (Korean and Japan Society for Biomaterials), Young Plenary Speaker (TERMIS-AP conference), Samsung HumanTech Paper Award (Samsung Electronics), and Promising Young Scientist (Korean Society of Mechanical Engineers).
