

# NANO KOREA 2024

The 22nd International Nanotech Symposium & Exhibition

---

## **Dr. Kyoung G. Lee**

National Nanofab Center, Republic of Korea

---

Kyoung G. Lee is a principal researcher of Center for Nanobio Development at National NanoFab Center. He received his B.S., M.S., degree in Chemical Engineering at University of Louisville and Ph.D. degrees in Chemical & Biomolecular engineering at KAIST, respectively. His research interest is on the development of nano/micro-structured fabrication process and its application areas in digital biosensor and biomedical devices.
