

**NANO KOREA 2024**

The 22nd International Nanotech Symposium & Exhibition

---

**Dr. Min Soh**

Center for Advanced Pharmaceutical Technology  
HyeonTechNBio, Inc.  
Republic of Korea

---

Dr. Min Soh is a Chief Technology Officer (CTO) and a Head of R&D for the Center for Advanced Pharmaceutical Technology at HyeonTechNBio.

He received a BS degree in 2010 in Chemistry from the Yonsei University and a Ph.D. degree in 2019 in Chemical and Biological Engineering from the Seoul National University. His research in the course focused on the development of inorganic nanomaterials for biomedical applications.

Following his Ph.D., he joined Samsung Electronics Co., Ltd. in 2019-2020 as a Staff Engineer in the Process Development Team and Material Development Team, respectively, in the Semiconductor R&D Center.

In 2020, he returned to his major field as a Senior Researcher at the Institute for Basic Science (IBS) to incubate the core technology of inorganic-based advanced pharmaceuticals for its practical uses from basic research to the bedside by leveraging his previous industrial experiences.

He became a founder of HyeonTechNBio in 2022. Since his participation, he has been directing an R&D center and continuing his research and business development for the successful translation of nanotherapeutics into clinical situations.
